# DECENTRALIZE, STAKE, EARN: **UNLEASH YOUR POTENTIAL**

## Decentralized DAO

A blockchain-driven entity, governed by smart contracts and token holders' collective decisions, obviates centralized control.

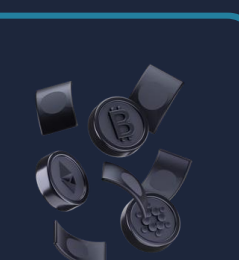

## Staking Rewards

A Collective Investment Platform where cryptocurrency holders pool funds to stake, unlocking rewards and incentives

## Play to Earn

Transform in-game successes into real-world gains, accumulating cryptocurrencies and valuable digital assets through gaming prowess.

CHAINVERGE

# OUR PRODUCTS

**EMPOWERING YOUR JOURNEY: THE PRODUCT YOU NEED**

# STAKING

## Token Involved: CVE (Chainverge Token)

- **Staking Rewards:** Earn rewards with an Annual Percentage Yield (APY) of up to 102%.
- **Fees:** 1.5% fee on staking and unstaking, ensuring sustainable operations.

## Built-in Price Protection Mechanism

- Ensures token value stability.
- Rewards adjust to maintain balance with staked amount, showcasing long-term commitment to sustainability.

## Referral System

Minimum Staking	5,000 CVE Tokens
Level 1 Referrals	Earn 15% of Referred User's Profit
Level 2 Referrals	Earn 5% of Referred User's Profit
Level 3 Referrals	Earn 3% of Referred User's Profit

## Staking Weight (Reward Tiers)

Pool Weight in CVE	Monthly Staking Reward	Annual Percentage Yield
0 - 5000	3%	36%
5.000 - 25.000	4,5%	54%
25.000 - 100.000	6%	72%
100.000 - 250.000	6,5%	78%
250.000 - Unlimited	8,5%	102%

# THE NFT

Chainverge unveils an exciting NFT segment, seamlessly weaving the realm of non-fungible tokens into its ecosystem. These NFTs offer a dual advantage, enriching both the staking and gaming journeys for our valued users

## Bronze Card

Boost your staking reward  
by 5%.

**Price:** 1000 CVE

**Rarity:** 500 pcs

## Silver Card

Elevate your reward with a  
10% increase.

**Price:** 2500 CVE

**Rarity:** 250 pcs

## Gold Card

Enjoy a significant 20% boost  
to your staking reward.

**Price:** 5000 CVE

**Rarity:** 100 pcs

## Obsidium Card

Maximize your earnings with  
a whopping 25% increase.

**Price:** 10000 CVE

**Rarity:** 50pcs

**Staking Boosters:** Chainverge's NFTs act as boosters in the staking pool, allowing holders to increase their staking rewards. By holding these cards, users can optimize their staking strategy, earning more from their investments. Only 1 NFT Card can be used for each Wallet!

# SWAP AGGREGATOR

## ►► COMPREHENSIVE PRICE CALCULATION:

- » Advanced Algorithms at Work: Scan prices across all exchanges.
- » Favorable Swap Rates: Calculations ensure users receive optimal swap values.

## ►► OPTIMAL SWAP ROUTES

- » Efficient Routing: Determine the best route for maximum value swaps.
- » Tailored Approach: Direct or multi-step routes based on token quantities & liquidity.

## ►► BROAD TOKEN SUPPORT

- » Extensive Token Range: Swap over 30,000 different tokens with flexibility & choice.
- » Unparalleled Variety: Offering extensive token selection available in market.

## ►► USER-FRIENDLY INTERFACE

- » Simplified User Experience: Input tokens and quantities effortlessly.
- » Seamless Execution: Aggregator ensures seamless swapping process.

## ►► SWAP INSURANCE

- » Peace of Mind: Insure your swaps for added security and asset protection.
- » Trust and Reliability: Safeguard your assets against rare discrepancies or issues.

## Fee Structure

**1 | Swap Fee:** A nominal 0.3% fee ensures sustainability and ecosystem support.

---

**2 | Empowering the Ecosystem:** Direct allocation of the fee to Chainverge Coinsafe amplifies community benefits.

---

**3 | Coinsafe Impact:** Funds fuel vital initiatives from buybacks to staking rewards, nurturing the Chainverge ecosystem.

# BRIDGE AGGREGATOR

## ►► INTELLIGENT PRICE CALCULATION

- » Active Price Scanning: The Bridge Aggregator scans & compares prices across exchanges.
- » Smart Algorithms: It optimizes rates for cross-chain transfers.

## ►► OPTIMAL BRIDGING ROUTES

- » Efficiency Matters: Intelligent routing selects the best path, whether direct or multi-step, for fast and reliable transfers.
- » Your Time, Your Savings: It's not just about price; it's about the most efficient journey.

## ►► EXTENSIVE NETWORK SUPPORT

- » Versatility Counts: Compatible with Ethereum, Binance, Polygon, Avalanche, Solana, and more.
- » Seamless Asset Mobility: Easily move assets across popular blockchain networks.

## ►► USER-CENTRIC DESIGN

- » Effortless Experience: Streamlined interface lets users choose source and destination networks, input tokens, and leave the rest to the aggregator.

In the dynamic realm of decentralized finance (DeFi), Chainverge introduces its cutting-edge Bridge Aggregator.

### Fee Structure

**1 | Bridging Fee (0.3%):** Transparent fee supporting aggregator maintenance and Chainverge's ecosystem.

**2 | Coinsafe Contribution:** 0.3% fee directly benefits Chainverge's Coinsafe, enriching the community and ecosystem.

# VERGE BOT

## MEMPOOL TRANSACTION TRACKING

- » Real-time monitoring of pending transactions for specified tokens.
- » Stay ahead of the curve, seizing emerging transactional trends.

## PRICE IMPACT ANALYSIS

- » Calculate potential price fluctuations resulting from pending transactions.
- » Empower strategic decision-making with predictive insights.

## MICROTRANSACTION PROFITEERING

- » Millisecond-speed execution of microtransactions.
- » Modest investments add up to substantial profits over time.

### Benefits of Vergebot

- 1 | Efficiency: Rapid responses to mempool trends with millisecond operation.
- 2 | Profitability: Small investments lead to greater returns through microtransactions.
- 3 | Predictive Insights: Gain a competitive edge with price impact analysis.
- 4 | Community-Centric: The DAO's input ensures Vergebot aligns with user needs and expectations.

In the fast-paced realm of blockchain and decentralized finance, Chainverge presents Vergebot, a cutting-edge solution set to transform the way we engage with mempool transactions.

### Development Status

- 1 | Vergebot is actively under development, with continuous refinement & optimization.
- 2 | Upcoming DAO integration for community review and feedback.
- 3 | Pricing to be determined based on performance, ensuring value for users.

# CRYPTO CARD

Step into the next generation of financial freedom with our groundbreaking WEB3 Crypto Card. Seamlessly top up your card directly using Wallet Connect, bridging the gap between your digital assets and everyday transactions.

## Smaragd Card

Material: Plastic  
Cashback: 2% ( Based on purchase Amount)  
Monthly Limit: 15.000€  
Daily Limit: 10.000€  
Daily ATM Withdraw Limit: 3000€

## Diamond Card

Material: Metal  
Cashback: XXX ( Based on purchase Amount)  
Monthly Limit: XXX  
Daily Limit: XXX  
Daily ATM Withdraw Limit: XXX

## Key Features

- 1 | Direct Top-Up: Instantly fund your WEB3 Card from popular wallets like MetaMask and TrustWallet.
- 2 | Enhanced Security: Leading-edge encryption and security protocols for your asset protection.
- 3 | Real-Time Tracking: Chainverge mobile app for spending monitoring, card management, & real-time updates.

## Benefits

- 1 | Simplicity: User-friendly interface for crypto transactions as simple as traditional banking.
- 2 | Flexibility: Ideal for everyday purchases or online transactions, your versatile WEB3 Card.
- 3 | Community-Centric: Integrated with Chainverge's community-driven ethos.
- 4 | Exclusive offers, & rewards curated for our community.

# THE DAO

## Proposal Initiation

- 1 | Community-Driven Innovation: Every Chainverge member can propose product changes, enhancements, or new developments.
- 2 | Formal Submission: Proposals are meticulously documented and submitted to the DAO for thoughtful consideration.

## Preliminary Review

- 1 | DAO Committee: A specialized committee assesses proposals for feasibility and alignment with Chainverge's vision.
- 2 | Feedback & Refinement: Proponents receive feedback, fostering proposal refinement for better outcomes.

## Community Discussion

- 1 | Open Dialogues: Community forums host robust discussions, gathering diverse insights and feedback.
- 2 | Collaborative Refinements: Proposals adapt based on community input, ensuring collective interests are addressed.

## DAO Voting

- 1 | Empowered Participation: Cast votes within a specified timeframe, with voting power tied to CVE token holdings.
- 2 | Transparency Assured: Utilize blockchain technology for transparent vote tallying, minimizing manipulation risks.

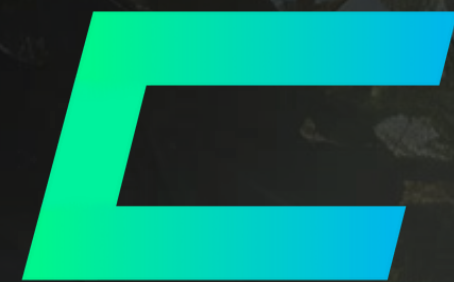

## Decision Implementation

- 1 | Approval Dynamics: Proposals require meeting predefined approval thresholds, emphasizing the importance of consensus.
- 2 | Execution and Collaboration: The approved proposals are executed through collaboration between the Chainverge team and community contributors.

## Feedback & Iteration

- 1 | Analyzing Impact: Conduct a post-implementation review to assess the effectiveness and impact of decisions.
- 2 | Adaptive Evolution: Use real-world results and feedback to propose further improvements, fostering a cycle of continuous enhancement.

CHAINVERGE

# PRIMUS: SURVIVE, THRIVE, CONQUER

ENTER A POST-APOCALYPTIC WORLD, WHERE EVERY MOVE IS LIFE OR DEATH

# PRIMUS UNLEASHED

Primus, Chainverge's flagship Play2Earn game, immerses players in a post-apocalyptic realm teeming with challenges.

Amidst relentless zombie hordes, players must navigate a perilous landscape where fellow survivors, equally driven by desperation, pose a formidable threat. In this heart-pounding adventure, survival is not guaranteed, but every triumph brings lucrative rewards, marking the dawn of a new gaming era.

Immersive  
Thrills

Lucrative  
Triumphs

Gaming  
Revolution

# PRIMUS OBJECTIVE

Navigate a perilous post-apocalyptic world, managing health, hunger, thirst, and fatigue for survival.

1

Combat threats from undead hordes and potentially hostile players using strategy, weapons, and wit.

2

Master resource management, gathering food, water, crafting materials, and ammunition.

3

Form alliances for shared resources, communal bases, and defense, but be wary of betrayal.

4

Thrive economically by trading, completing quests, and earning Chainverge tokens in the Play2Earn model.

5
